## 8. General Data Protection Regulation (GDPR)

By submitting an application to the bilateral call, the applicant consents to the use, processing and retention of their data for these purposes:

- application processing and evaluation
- publication of the call results on websites of the RFOs (research funding organisations) to the following extent: PI name, project title, project acronym, project abstract
- administering the award of funding for the duration of the project
- analysing and evaluating the call and project results
- providing aggregate data to reports and analyses requested by government authorities
- complying with internal and external audits
- building an internal registry of SAS research expertise
- contacting the applicant/awardee in relation to the above activities

SAS may share the applicant's data with third parties (some of which may be based outside the European Economic Area) in relation to the above activities, including with the partner RFO and evaluators.

SAS may also link data from applications with national, bibliographic or external research funding data that is available through public subscription-based databases (e.g. Scopus, Web of Science, etc.) or other open datasets.

SAS will not publish confidential information, such as scientific content of the proposal and applicants' personal data. Nor will it publish information on projects that will not be awarded funding. Reviews and names of reviewers participating in the evaluation process will be treated confidentially. Anonymized reviews will be provided as feedback to individual applicants at the time of formal notification of results.

## **9. Notification of changes**

The applicant must notify SAS in writing of any changes in provided information (such as a significant change in the research team composition and a decrease of PI's contracted time) that might affect eligibility of their proposal in the pre-award stage or the project implementation post-award within 7 calendar days after first learning of it.
