

115 學年醫學院升等公開演講

~醫學系教師~

E905、E911 醫學系 PBL 教室：慈大圖書館旁電梯搭至 9 樓

時間	地點	聘任單位	姓名	擬升等 職級	代表著作
10/12(一) 14:00-15:00	E911	生化學科	林皓然	副教授	Intestinal <i>Lactobacillus johnsonii</i> protects against neuroangiostrongyliasis in BALB/c mice through modulation of immune response
10/13(二) 14:00-15:00	E911	人文醫學科	劉子弘	副教授 (教學)	Nurturing empathy in new medical professionals through a community-based educational program a mixed-methods study
10/15(四) 11:00-12:00	E911	核子醫學科	陳昱宏	副教授	Tumor glycolytic heterogeneity improves detection of regional nodal metastasis in patients with lung adenocarcinoma
10/16(五) 10:00-11:00	E911	內科學科	葉冠宏	助理教授	High circulating PCSK9 concentration is associated with increased and sex-specific risks of metabolic disease, diabetes mellitus, MASLD, and long-term mortality in a Taiwanese population
10/16(五) 11:00-12:00	E911	內科學科	林茂仁	教授	Correlation Between Smoking Paradox and Heart Rhythm Outcomes in Patients With Coronary Artery Disease Receiving Percutaneous Coronary Intervention
10/16(五) 14:00-15:00	E911	腫瘤學科	王佐輔	教授	Long-term follow-up of cancer and catastrophic diseases in hematopoietic stem cell donors: a comprehensive matched cohort study
10/20(二) 11:00-12:00	E911	內科學科	彭清秀	助理教授	Dialysis Modality and Incident Stroke Among Patients With End-Stage Kidney Disease: A Registry-Based Cohort Study
10/22(四) 14:00-15:00	E911	內科學科	王智賢	副教授	Decreased Serum Antibodies Against Oxidized Low-Density Lipoprotein Levels Are Associated with Peripheral Arterial Disease in Patients Undergoing Peritoneal Dialysis
10/23(五) 10:00-11:00	E905	小兒學科	張宇勳	教授	miR-7704-Enriched Stem Cell-Derived Extracellular Vesicles Attenuate Hyperoxia-Induced Apoptosis and Oxidation in Lung Epithelial Cells
10/23(五) 10:00-11:00	E911	生化學科	江信仲	教授	Unveiling the anti-inflammatory potential of RF16, an interleukin 8-derived therapeutic peptide in macrophages
10/23(五) 11:00-12:00	E911	內科學科	蘇文麟	教授	Early fungal colonization and infection as an independent predictor of in-hospital mortality in mechanically ventilated COVID-19 patients: A nationwide target trial emulation study in Taiwan.
10/23(五) 14:00-15:00	E911	家庭醫學科	黃暉凱	副教授	Denosumab and the Risk of Diabetes in Patients Treated for Osteoporosis
10/23(五) 14:00-15:00	E905	藥理學科	賴宇軒	副教授	Lipoprotein(a) levels predict endothelial dysfunction in maintenance hemodialysis patients: evidence from vascular reactivity index assessment
10/23(五) 15:00-16:00	E911	內科學科	吳哲熊	副教授	KCNJ5-Negative Primary Aldosteronism: Histopathology and Surgical Outcomes
